

Renewable Energy Certificate
(REC) **Wind**

This is to certify the origin of the renewable energy delivered to

EMCOR Group, Inc.

This certificate confirms that **66,021 MWh** of Renewable Energy Certificates (REC) are redeemed on behalf of **EMCOR Group, Inc.** and are thus claimable for its energy consumption in the **United States** in the period **2025-01-01 - 2025-12-31**. The power plants producing the electricity are **Wind** power plants in US.

The power production is certified according to the **United States American Renewable Energy Certificate (REC) Standard** and is documented by issuance of an electronic REC. These Renewable Energy Certificates are described in The Legal Basis for Renewable Energy Certificates of the Center for Resource Solutions, registered at 1012 Torney Ave. 2nd Floor, San Francisco, CA 94129, US on the promotion of electricity produced from renewable energy sources in the internal electricity market.

Renewable Energy Certificates are being produced during the respective year and are transferred to a REC registry account (<https://sa.ercot.com/>) at the end of the production year.

This Certificate of Purchase is a declaration guaranteeing that the energy consumed originates from renewable energy sources, equal to the amount of certificates purchased.

Energy

CERTIFIED PURCHASE

STX Commodities LLC PRESENTS THIS CERTIFICATE OF
ENVIRONMENTAL STEWARDSHIP TO:

EMCOR Group, Inc.

In recognition of its purchase of Green-e® Certified Renewable Energy Credits.

Retirement Reason: On behalf of EMCOR Group, Inc

Purchase Amount: 65,021 MWh

Product Name: Wind

Year: 2025

The purchase of RECs helps build a market for renewable electricity and helps to reduce conventional electricity generation in the region where the renewable electricity generator is located. It also has other environmental benefits which may include emitting reduced or no regional air pollution or carbon dioxide.

This product is Green-e® Energy certified and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. This is a renewable energy certificate (REC) product and does not contain electricity. A REC represents the environmental benefits of one megawatt hour (MWh) of renewable energy that can be paired with electricity. For more information, see www.green-e.org/rec. Terms and Conditions apply, see www.green-e.org for details.

REDUCE WHAT YOU CAN OFFSET WHAT YOU CAN'T™

carbon offset certificate

presented to

EMCOR Group, Inc.

for reducing

25,000 Tonnes of CO2 Emissions

Global warming is real and we all need to be part of the solution. This donation to the Carbonfund.org Foundation is helping fight global warming today by supporting carbon reduction projects worldwide, including renewable energy, methane destruction, energy efficiency and forestry. Thank you.
