

Dynalectric Company (Florida)

An Electrical Design-Build,
Value Engineering, Construction,
& Renovation Services Company.

Delivering seamless specialty contracting solutions, including electrical construction, security solutions, and preventive maintenance.

Size. Technology. Expertise. From One Innovative Electrical Contractor.

Since 1978, Dynalectric Company (Florida) has provided electrical services for many of Florida's largest and most well-known companies and projects. A team of expert electrical technicians, trained in today's most advanced technologies, help plan, design-build/design-assist, install, and maintain an extensive variety of electrical systems and components.

With 350+ field and office personnel working on projects varying from small and simple to advanced and complex, Dynalectric Florida's highly trained project managers, electrical engineers, Registered Communications Distribution Designers (RCDD), and expert electricians provide clients with the kind of reliable, responsive service they've come to expect from an industry leader. Whether working to complete an integrated communications network, electrical systems for large venues, such as arenas and convention centers, or simply delivering field engineering services, the Dynalectric Florida team can help clients in virtually every market combine optimum performance and with long-term quality and value.

Dynalectric Florida services include:

- » Complete electrical distribution systems
- » Fire alarm systems
- » Life safety
- » Paging, nurse call and audio/visual systems
- » Security systems
- » Instrumentation
- » Network design, installation and integration service
- » Voice/data
- » Premise distribution systems design and selection
- » Structured cabling system
- » Onsite maintenance service
- » Baggage handling and scanning systems
- » Runway lighting and signage
- » High-voltage preventive maintenance and splicing

The Safe Way. The Only Way.

At Dynalectric Florida, productivity isn't about shortcuts—it's about safely creating the right conditions for schedules and plans to be completed on time or with time advantage. This includes pre-planning, setup, deploying trained workers with the right tools and equipment, as well as the correct degree of instruction and supervision. The integration of safety, quality, and productivity has successfully helped to reduce injuries and injury costs. Because doing things safely isn't just a goal at Dynalectric. It's a core value.

ISO Certification

Dynalectric Florida believes that quality and value are essential to clients, which is why the organization has become the first electrical contractor in South Florida to attain ISO 9001:2000 certification. This means systems and services consistently conform to an international quality standard that emphasizes customer focus and a preventive approach to operations management.

Design-Build

As a full-service electrical solutions provider, Dynalectric Florida offers complete in-house engineering and design-build capabilities. By combining the knowledge and experience of Dynalectric Florida's seasoned engineers with the company's Computer-Aided Design (CAD) technology and professional construction management services, Dynalectric Florida can help facilitate each client's design-build project. Project managers also help control costs and schedules, reduce administrative burdens, and improve risk management—making Dynalectric Florida the one-stop-shop for any electrical project.

A Full Suite of Complete Electrical Services.

Security Solutions

Dynalectric Florida can design, install, and maintain today's most advanced security solutions, including a full arrangement of high-performance components from leading manufacturers. These components combine easy installation and use with some of the most formidable security features available, all of which satisfy the tough criteria of HSPD12, a strategic initiative intended to enhance security, increase government efficiency, reduce identity fraud, and protect personal privacy.

Dynalectric Florida's highly skilled professionals can handle every aspect of a project, helping to ensure that clients get the quality, reliability, and value they expect. Whether implementing a simple or complex standalone security system, or an integrated security and electrical network, clients can count on Dynalectric Florida to give them the power, performance, and protection they need. Services include:

- » Complete electrical distribution systems
- » Fire alarm systems
- » Life safety systems
- » Paging, nurse call, and audio/visual systems
- » Security camera systems
- » Instrumentation systems
- » Network design, installation, and integration services
- » Voice/data
- » Premises distribution systems design and selection
- » Structured cabling systems
- » Onsite maintenance services
- » Baggage handling and scanning systems
- » Runway lighting and signage installation
- » High-voltage preventive maintenance and splicing
- » Subsurface imaging

Telecommunications and Information Technology

Dynalectric Florida's Telecommunications and Information Technology Division helps clients meet business objectives by providing structured cabling and premise distribution systems. Using the latest cabling technologies and brand-name equipment, Registered Communications Distribution Designers and certified technicians design and install solutions tailored to each specific business. The result is systems that give clients maximum value for their data infrastructure dollar.

Maintenance

Whether it is a maintenance contract or work performed on a time and material basis, Dynalectric Florida works with clients to implement the best available maintenance solution. Available 24/7/365, on a scheduled, emergency, or project basis, Dynalectric Florida's technicians are trained in a full spectrum of electrical disciplines, including repairs, motor controls, and basic circuit troubleshooting. They are also skilled in more specialized areas, such as high-voltage preventive maintenance and splicing. Combining high-level expertise and first-hand experience, they help detect problems and correct them quickly, safely, and efficiently.

Dynalectric Company (Florida)

An EMCOR Company

Harnessing the Power of a Fortune 500® Leader

EMCOR Group, Inc. (NYSE: EME) is a Fortune 500® leader in mechanical and electrical construction, industrial and energy infrastructure, and building services for a diverse range of businesses.
